

# Dinosaur movies

I have a 1992 version of Sir Arthur Conan Doyle's "The Lost World". I tend to like movies about dinosaurs, especially campy ones. Rubber dinosaurs, stop action clay dinosaurs, lizards with frills attached are all good fun. Newer movies with good CGI effects are also fun for me. The movie I have is more of the rubber dinosaur type. If you know of the book, John Rhys Davies is Professor Challenger. I've like most of the movies with Mr Davies, and so far this is no exception. He is as bombastic and egotistical as the book. I don't remember the story having a kid along, but he hasn't got on my nerves too much yet. My biggest problem with the story so far is that they moved the location of lost world from the Amazon to the heart of Africa. I'm still curious as to why that was changed, but I guess it doesn't make much difference. More on this after I finish watching.
