

# How do I get home?

I was heading home in the usual direction after the play tonight. I found myself up against some high water that wasn't there the day before (river crested today). So I backed up and headed down another county road. Low and behold there was water blocking that path too. I never remembered that area with water, but what ever. So back up and down a third road (remember these are 1/2 to 1 mile apart here in NW Ohio) and there was more water!!!

Now I'm somewhat stuck, how can I get home without going back to town. Really there was no way, so I had to do just that. Back to town and head down the main roads. This was a side jaunt of about 5 miles. Water was just under the bridge heading west out of town. The village cemetery was under water, or at least the access roads were. So there is still a lot of water hanging around.

Then I get to my road and I find another spot where water is crossing the road. Lucky for me, that it was only a few inches deep, or it would have been another turn around. And I was only 1 1/2 miles from home...

We haven't had rain since Tuesday night and Wednesday morning, but in some spots the water is much higher than it as last night. The streams and rivers must be carrying that water from somewhere else.

---

## Water, Water everywhere

Have we had enough rain yet? It was a downpour last night and I knew that my usual routes to work may have some flooding, so

I left a bit early.

I was not prepared for the amount of water on the roads this morning. I had to backtrack twice when I got to places with more water than my truck would handle. Our little bridge (culvert) at the end of the drive was flowing over with water this morning. Of course I did notice there were many places that had water on them earlier, but it went down enough to be off the roadway by the time I passed.

I was worried about one place I didn't pass this morning, but did this afternoon after the water subsided. I pass one place just outside of a small town, where there is a small donkey and a few goats. When I passed the place this afternoon, I noticed that the goat/donkey pasture was under at least 3 to 4 feet of water. I did not notice any animals standing in the water, so I am assuming the owners got them out and they are all safe.

On the way home from play rehearsal today, I also had to do a couple of bypasses of flooded roads. There were a few places where I had to go through some standing water just to make it home. It felt like one of those "You can't get there from here" sort of stories.

I'm sure some of the roads I travel on will be better tomorrow, but some will be worse as some of the local rivers have yet to crest.

Stay safe if you are driving in flood prone areas. There is water, water everywhere.
