

# I never thought I would see this...

I really thought I've seen a lot on the web, but I never thought I would see [this](#).

Just for your information, I was looking up which albums ["Longer by Dan Fogelberg"](#) was included in. I really didn't expect to see a video of an old LP playing. I have a number of Fogelberg's CD, and a few old LPs. It is just that now I don't have anyway to play the LPs... I haven't watched one on a turntable for years...

I need to find the tape of my wedding, my 'little' sister sang [Longer](#) for us.
