

Ok, I thought you were pulling my leg

Last night somebody mentioned something about guys wearing pantyhose. Well, being me, I thought they were talking about Mel Brook's *Men in Tights*. Little did I know that it is a new [fashion statement](#) for men.

Sometimes enough is enough. Most guys, myself included, have no fashion sense at all. Now people are trying to throw in another accessory for men to wear? I can see it now... When do we wear our pantyhose? What color is best for my outfit or legs???? I don't see that happening in NW Ohio anytime soon.

I'll stick to my kilt thank you very much....

Yes, this is a picture of me in a kilt on the occasion of my eldest daughter's wedding. It was a wonderful affair, but that kilt was extremely warm on that 80+ degree May day.

The things that fathers will do for their daughters..., but I draw the line at pantyhose...
