

King of Kings

The sermon jam today was about how your life is not about you, but about god. My bible verse was Psalms 103:19. It read; The Lord established his throne in heaven, and his kingdom rules over all. For worship we sung to King of Kings by Hillsong Worship.

For math we did pre algebra, and learned some pre algebra vocabulary. For history we learned about how the English language got messed up by a war.

For lunch I had corndogs, and for recess me and Luke wrestled. For physics we learned about Rocky Mountain Construction, and how their projects work.
