

Ok, I just thought this was neat..

I was just doing a little late night surfing and found this in the "Odd News section". Seems like [fighting beetles](#) is a big thing.

After you see the video can you imagine the size of those beetles? According to Wikipedia, the [Rhinoceros Beetle](#) are among the largest beetles in the world. I don't think I want to see something that big crawling around in my house.

I'm not sure I like the idea of beetle fights, but then again we still have one or two frog jumping contests in the US. Probably much the same.
